Dear Residents/Traders,

Blackheath Standard – Charlton Road / Westcombe Hill Junction

Proposed Pedestrian Safety Improvements

Further to our recent communication, a further plan has been prepared for the proposed pedestrian safety improvements at the junction of Charlton Road and Westcombe Hill. This is on display for three weeks from today at Mycenae House Community Centre, Mycenae Road during the hours when the Community Centre is open to the public (9.00 a.m. – 10.30 p.m. Monday – Friday and 9 a.m. – 12.20 p.m. Saturday).

The general arrangements for the improved crossing at the northwest corner of the green have not changed appreciably from the preliminary plan attached to our previous communication, but the latest plan shows more detail, including dimensions, proposed materials and street furniture. It also shows some additional features we would like to include at this time:

- a proposed 'raised table' on the existing Charlton Road pelican crossing near the southwest corner of the green, and
- an additional traffic calming 'table' near the north east corner of the green (with an extension to the traffic island).

Please note the Council will shortly be carrying out further consultation with all businesses in the Royal Standard area with regard to new on-street parking controls in this locality, including those for the proposed bays on Westcombe Hill to be provided as part of this scheme.

You are cordially invited to view the plan at Mycenae House. Please could you forward any comments you might have in writing to the above address before 7 December 2012, or by email to brian.hanson@greenwich.gov.uk.

If you would like to discuss any aspect of the plan please telephone:

Brian Hanson - 020 8921 6114, or
Darren Little - 020 8921 6024.

Yours sincerely

Alex Djan
Traffic Group Manager
