

## ***Tell Boris: We don't want your traffic jams!***

**Greenwich Council is backing plans by Mayor of London Boris Johnson to build the Silvertown Tunnel, a new road which would feed extra traffic into the A102 and A2 through Greenwich, Charlton, Blackheath, Kidbrooke and Eltham.**

**We all know air quality in this area is bad enough without a new road making it easier for HGVs and other traffic to use our neighbourhoods as rat runs.**

**Come to our public meeting, hear the evidence, and find out how you can help stop the Silvertown Tunnel blighting all our lives.**

Our speakers include:

**SIAN BERRY** (Campaign for Better Transport)

**SIMON BIRKETT** (Clean Air London)

**JOHN ELLIOTT** (Independent transport consultant)

**DR IAN MUDWAY** (King's College London air quality expert)

**WED 16 OCT, 7PM: FORUM AT GREENWICH, TRAFALGAR ROAD, SE10 9EQ**

(Nearest station: Maze Hill; buses 129, 177, 180, 188, 286, 386, 422)

**For more information on the tunnel and air quality in YOUR neighbourhood, visit**
